

## **TAPOUT PROFESSIONAL CAGES**

The initial perception of an event, from a spectator point of view, often depends upon the quality of the cage that is used for that event. Tapout Professional Cages embody a level of excellence that is unparalleled in the industry. Not only has the Professional Cage been designed to be aesthetically appealing with clean lines and smooth vinyl surfaces, but it has been engineered to be the strongest cage on the market.

Manufactured with the intent of being assembled and disassembled countless times with ease while preserving its structural integrity, our Professional Cages come turnkey and ready to meet your event needs. Your cage comes complete with the following features:

1. Professional Cage Framing
2. Professional Cage Entry Gate
3. Vinyl –Coated Chain Link
4. Frame Padding and Vinyl Wraps
5. Floor Padding
6. Vinyl Mat Cover
7. Vertical Post Pads
8. Vinyl Skirt
9. Stairs
10. Assembly Hardware

### **1. Professional Cage Framing**

- The vertical support posts that tie the cage together are constructed of heavy gauge steel with 8” x 8” base plates which in turn are tied together with a 10” tall “H” truss system.
- The sub-framing has a large center stage with support bars extending out to the trusses and vertical posts.
- The center stage, support bars, trusses and vertical posts are all tied together utilizing laser cut U-Brackets which make for a quick assembly of the cage framing.
- On top of the sub-framing, rests another lighter steel sub-floor with CNC cut plywood already attached giving your floor more durability. The flooring is held in place by laser cut brackets serving to lock the flooring together.
- The Professional Cage panels are all constructed of round tubing that attach to the vertical posts using the same laser cut steel U-Brackets used for the sub-framing.
- The steel framing pieces are then sand blasted and powder coated with a Black Semi-Gloss color. This providing superior scratch and corrosion resistance.

### **2. Professional Cage Entry Gate**

- One of the strongest features of the Professional Cage is the entry gate. It has been engineered to offer maximum strength against collision and yet still has smooth operation for easy access into the cage.
- The gate hinge system utilizes Zinc-Plated Stainless Steel Clevis Pins to attach the gate to the panel framing, and are cushioned with Bronze Thrust Bearings composed of Oilite (a porous material, impregnated with 18% SAE 30 oil, making for a virtually maintenance free bearing and adds resistance to shock load).
- The Gate Pin is composed of hardened steel to give you the security of knowing that your cage door will stay closed when impacted by athletes.

PROPRIETARY AND CONFIDENTIAL - THE INFORMATION CONTAINED IN THIS DOCUMENT IS THE SOLE PROPERTY OF TAPOUT, LLC. ANY REPRODUCTION IN PART OR AS A WHOLE IS PROHIBITED WITHOUT THE WRITTEN PERMISSION OF TAPOUT, LLC.

### 3. Vinyl-Coated Chain-link

- The chain link is comprised of the thickest commercial grade wire available. The vinyl coating is then bonded onto the chain-link to ensure if cut, does not peel off.
- Custom color chain-link is available upon request. Please contact 7Base for additional pricing and color choices. *(please note, custom color choices may increase the production timeline of your Professional Cage)*

### 4. Frame Padding and Vinyl Wraps

- The Professional Cage framing is padded with a ¾" closed-cell polymer foam and then covered with a 10 oz. Black Vinyl that is secured with 2" wide Velcro straps.
- The top horizontal bar is a great spot to create branding and/or sponsorship advertising for your event.
- Custom color Vinyl Wraps are available upon request. Please contact 7Base for additional pricing and color choices. *(please note, custom color choices may increase the production timeline of your Professional Cage)*

### 5. Floor Padding

- The floor padding is composed of a 1-3/8" closed-cell polyethylene foam designed to reform its original thickness after compression while still providing a firm surface to fight on. This provides a fighting surface that will not slow down the athletes yet protect them on high impact throws.

### 6. Vinyl Mat Cover

- The Professional Cage comes standard with a blank 16 oz. Vinyl Mat cover in either blue, red or black.
- Custom printed vinyl or canvas mat covers are available upon request. These provide the perfect opportunity to obtain funding for your event through the sale of advertising space on your mat cover. Please contact Tapout for more details. *(please note, custom color choices may increase the production timeline of your Professional Cage)*

### 7. Vertical Post Pads

- The vertical posts are covered with a 14" wide post pad (Approved by the California, Texas, Florida, Nevada and New Jersey State Athletic Commissions) are serve to protect the athletes while fighting against the vertical posts.
- The Vertical Posts Pads are a great spot to create branding and/or sponsorship advertising for your event.
- Custom color Vertical Post Pads are available upon request. Please contact Tapout for additional pricing and color choices. *(please note, custom color choices may increase the production timeline of your Professional Cage)*

### 8. Vinyl Skirt

- We utilize a 10 oz. Black Vinyl skirt that attaches directly to the cage panels to cover the framing system and give the Professional Cage a complete and seamless look.

### 9. Stairs

- The Professional Cage is completed with an all steel, diamond plated three step stair allowing easy access to and from the cage for the athletes and officials.

*\* Custom size and shaped cages are available upon request. Please contact your local Tapout representative for more details.*
